VISION: We are the leader in innovative, customer-centered government.

MISSION: To continually improve public services that enhance the community for citizens and future generations of St. Clair County.

June 15, 2009

To the Board of Commissioners and
Citizens of St. Clair County

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of St. Clair County for the fiscal year ended December 31, 2008.

This report consists of management's representations concerning the finances of St. Clair County. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, the management of St. Clair County has established a comprehensive internal control framework that is designed to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the presentation of St. Clair County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, St. Clair County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

St. Clair County's financial statements have been audited by Stewart, Beauvais & Whipple PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of St. Clair County, for the fiscal year ended December 31, 2008, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unqualified opinion that St. Clair

County's financial statements for the fiscal year ended December 31, 2008, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of St. Clair County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and legal requirements involving the administration of federal awards. These reports are available in St. Clair County's separately issued Single Audit Report.

This Comprehensive Annual Financial Report (CAFR) is issued pursuant to the requirements of the Governmental Accounting Standards Board (GASB). GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. St. Clair County's MD&A can be found immediately following the report of the independent auditors.

Profile of St. Clair County

St. Clair County, established in 1820, is located in southeastern Michigan and covers approximately 700 square miles. On the County's eastern border is the sovereign country of Canada, separated by approximately fifty-eight miles of shoreline on Lake Huron, the St. Clair River and Lake St. Clair. The County is less than one hour from metropolitan Detroit and is the eastern terminus of two major interstate highways, I-94 and I-69, the site of an international airport, two international bridges, two international ferry services, and the site of an international train tunnel. The bridges and train tunnel play an integral part in the "trade corridor" created by the Free Trade Agreement between the United States and Canada, as they are major players in the movement of goods between the two countries.

The County continues to experience an influx of people from the metropolitan Detroit area, as they look for an alternative to the "big city" lifestyle. The 2000 census reported that 164,235 citizens populated the County, which is a 12.8% increase over the 1990 census, and they lived in 62,072 households. The Southeastern Michigan Council of Governments currently estimates the county population at about 171,017, living in an estimated 66,915 households. These people live in a mix of rural and urban communities, encompassing 9 villages and cities and 23 townships. The county seat is located in Port Huron, which is the largest city in the County, and where a majority of our offices are located.

The County is organized under the various public acts of the State of Michigan and is governed by a seven member Board of Commissioners, elected by district for two-year terms. The Board of Commissioners serve as the legislative body responsible for

establishing policy and appropriating funds. The Board of Commissioners appoints an Administrator/Controller who is responsible for carrying out the policies and ordinances of the Board of Commissioners and the day-to-day management of County affairs.

Other elected officials include the Clerk/Register of Deeds, Treasurer, Prosecutor, Sheriff, Drain Commissioner and Surveyor. These offices are elected countywide to four-year terms. The Clerk/Register of Deeds is responsible for recording vital statistics, maintaining court records, documents regarding property ownership, and Board of Commissioner proceedings; the Treasurer is responsible for the collection of delinquent taxes, delinquent tax settlements with local units, cash management and investments; the Prosecutor and Sheriff are responsible for law enforcement; the Drain Commissioner is responsible for construction and maintenance of drains; and the Surveyor is responsible for the proper surveying of the boundaries of land parcels.

The court system consists of the 72nd District Court, Probate Court, and the 31st Circuit Court (including the Family Division). The 72nd District Court, with three judges, has jurisdiction over misdemeanors, ordinance and charter violations, civil cases under \$25,000, traffic infractions, and preliminary examinations in felony cases. The Probate Court, with two judges, is responsible for estates, mental health matters, guardianships, and they act as Circuit Court Judges for certain domestic matters. The 31st Circuit Court, with three judges, has jurisdiction over criminal cases where the minimum penalty is over one year incarceration, civil damage cases over \$25,000, and family matters. All judges are elected, countywide, to staggered six-year terms.

The Board of Commissioners appoints members to the three member Board of Road Commissioners, the three member Department of Public Works Board, and the twelve member Community Mental Health Authority Board. These boards are governed and controlled by various public acts and statues, and function as separate entities. Because of these appointments, and the fact that they may receive county appropriations they are reflected as discretely presented component units in the County's CAFR, as required by the GASB.

The Board of Commissioners also appoints members to a variety of boards and commissions that have various responsibilities and duties. Some of the more complex of these boards and commissions include the Parks and Recreation Board, the Metropolitan Planning Commission, the Library Board and the Commission on Aging. The Parks and Recreation Board oversees extra-voted millage monies collected by the County and used for the development and maintenance of a County park system. The Metropolitan Planning Commission oversees the development of the County master plans used for land development in the County. The Library Board oversees extra-voted millage monies, and other monies, collected by the County and used for the operation of our County-wide Library system. The Commission on Aging oversees extra-voted millage monies collected by the County and used for the enrichment of the lives of our senior population.

The County provides a wide range of services that are either mandated by state statute or authorized by the Board of Commissioners. These general areas include Legislative (ie.

Board of Commissioners), Judicial (ie. Courts, Friend of Court, and Probation), General Government (ie. Elections, Equalization, Administration, Prosecuting Attorney, Clerk/Register of Deeds, Treasurer, Drain Commissioner, Buildings and Grounds maintenance, and Information Technology), Public Safety (ie. Sheriff, Jail, Emergency Preparedness, Animal Control), Public Works (Drains, Airport, Landfill), Health and Welfare (ie. Health Department, Veteran's Affairs, Public Guardian, Child Care), Community & Economic Development (ie. Planning) and Recreation and Culture (ie. Parks, Library).

Financial Practices

The annual budget serves as the foundation for the County's financial planning and control. For the 2008 budget the Administrator/Controller's office prepared staffing budgets for the departments that adhered to the 2007 staffing levels but were brought up to the expected costs for 2008. All other expenses for 2008 were kept at 2007 levels with the exception of various costs that are beyond our control (ie. fuel, electricity, court appointed attorneys, court witnesses). Departments were expected to do more with less.

Departments of the County that wanted a budget other than what was prepared for them were required to submit requests for new employees and programs with the documentation to support their request. The Administrator/Controller took into consideration these requests, the results of the County-wide Capital Improvement Program recommendations, and projections of revenues and expenditures from our financial forecasting model software. In early October 2007, the Administrator/Controller submitted a balanced proposed budget to the Board of Commissioners for their consideration. The Board then held workshops to discuss the budget, heard from Departments that did not get what they asked the Administrator/Controller for, held a public hearing, and finally adopted the balanced budget. State law requires the budgets be adopted prior to the start of the fiscal year.

Budgetary control is maintained at the account level (line item) while budgets are legally adopted at the activity (department) or function (e.g., public safety) level. The Administrator/Controller is authorized to transfer budget amounts between accounts; however, any revisions to a total activity or function for any respective fund must be approved by the Board of Commissioners. Revisions to the budget are recommended by the Administrator/Controller and adopted by the Board of Commissioners at regular meetings throughout the year. The Board of Commissioners are provided monthly reports that report budget and actual amounts by department or program.

The Administration of St. Clair County has made it our practice to annually present and recommend a balanced budget to the Board of Commissioners.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment in which the County operates.

Local Economy. The County, like all governments in Michigan, is still feeling the effects of a general statewide economic downturn. Our manufacturing and industrial base is primarily aimed at the auto industry, which is suffering through a rough economy, and our residential property has been negatively impacted along with all residential properties in southeastern Michigan. The State of Michigan is projecting revenue reductions in its budget that will no doubt translate to less State money available to local governments for programs and operations. In fact, in 2008 we were again the recipients of reductions in a large number of state supported programmatic revenues.

Despite the above noted roadblocks to growth: new national and regional retail businesses continue to move to St. Clair County, our population is increasing, the County general operating millage rate is at lower than authorized levels (due to Headlee overrides), the County bond rating continues to be strong and has been recently upgraded, and the County continues to maintain a high level of services to our citizens.

The following projects demonstrate the viability of St. Clair County to compete for new manufacturing growth:

- The DaimlerChrysler Corporation is on schedule to open their new 750,000 square foot St. Clair Township plant to produce axles and drive train components for 2010 model vehicles. The plant has been leased to ZF Group, the 9th largest auto supplier in the world. They will produce axles and drive train components in the most modern axle plant in North America for various automobile manufacturers. The plant is expected to open in the fall of 2009 for pre-production with production expected to start in the spring of 2010, employing about 350 people.
- Keihin Corporation has opened their new \$25,000,000 plant in the Village of Capac to produce intake manifold assemblies and HVAC systems for Honda Motors. The plant now employs about 260 people.
- Energy Components Group has recently announced plans to open an alternative energy manufacturing plant in the City of St. Clair. The company will invest about \$21,000,000 and create 250 jobs over the next several years. They are suppliers to the solar and wind power industries.

Because of what was noted earlier, we have experienced a net negative impact in our total property values of \$40,143,048 (.6%) from 2007 to 2008. From 2006 to 2007 the County had a net gain in total property values of \$284,716,735 (4.61%). Increases in 2008 occurred in the following categories: commercial (\$12,445,057 or 2.1%), agricultural (\$6,898,576 or 2.4%), industrial (\$27,713,324 or 3.1%) and personal property (\$3,940,864

or 6.9%), while a decrease occurred in residential property (\$90,172,758 or 2.1%) and developmental property (\$968,111 or 36.5%).

Although we are currently seeing decreases in total taxable values in the County, it is apparent the decreases are being driven by a decline in housing sales, a housing market that is currently declining and an increase in mortgage foreclosures caused, partially, by relatively high unemployment.

Long-term Financial Planning. The County has implemented the conversion of our landfill cell space to new technology that will enable it to become a “perpetual landfill”. Using a new, patented process we will inject septage into the new cells at the landfill to promote the aggressive decomposition of garbage. After decomposition the cell will be re-filled with garbage, and the process starts over again. This “bio-reactor” has the potential to ensure landfill space well into the future and the technology developed here will be marketed and sold to other landfills for their use. We have also contracted with Detroit Edison Company to buy the methane gas created by the decomposition at the landfill to produce electric power. This revenue stream will continue for the life of the landfill.

In 2008, the County finalized negotiations with several property owners in the south central portion of the County to purchase approximately 400 acres of wooded property, with the Belle River running through it, for development as a general day-use park. We received a state grant for acquisition of some of the land and have completed the purchase of four parcels, with the county share of the costs coming from the Parks & Recreation millage. Development of the park will start in 2009.

In late 2008 the County finalized the purchase of 44.5 acres in Clyde Township to be developed into a passive recreation day-use park. We received a state grant for 64.5% of the acquisition of the land, with the balance coming from the Parks & Recreation millage. Development of the park will start in 2009.

To enhance the public safety system of the county the Board of Commissioner’s approved the sale of bonds in the amount of \$3,000,000 to build two towers in the central and western portions of the county to improve reception for our 911 communications system. The balance of the \$3.75 million project will come from federal and state grants already received. The bonds will be sold in the summer of 2009. Construction is scheduled to start in late summer of 2009 and be completed in 2010.

The County utilizes a software product for financial forecasting. The model takes a look 6 years into the future as to where the finances of the County will be. It utilizes known historical information as well as assumptions as to future revenues and expenditures, and has been accurate in its predictions. Administration uses this model to guide us in our budget deliberations and it is updated as new information is received.

The County is looking for a long-term solution to what we expect will be ongoing reductions to state program revenues fostered by state budget woes. We are also taking a hard look at the services we provide, and how we provide them, as we formulate our future

budgets. The objective is to continue to deliver high quality and relevant services to the citizens of the County. We are looking internally to determine if we are utilizing automation as efficiently as possible, exploring new revenue sources and reducing expenditures where practical.

Cash Management. Cash temporarily idle during the year was invested in certificates of deposit and government investment pools offered by commercial banks. All accounts, excluding the retirement system and investment trust accounts, are maintained in institutions insured through federal depository insurance funds, although not all amounts are insured to their full value. Depending on the institution the County Treasurer may require collateralization by the institution to protect our entire investment principal. Due to the large sums of money the County deals with, and the \$250,000 limitations of federal insurance, it is impractical to place all of our money in insured accounts. The County Treasurer recorded approximately \$ 920,000 in interest earnings in 2008, and approximately \$1,500,000 in interest earnings in 2007, for general operations.

The County Employees Retirement System deposits are invested in compliance with State statutes in U.S. Government securities, high-grade bonds, stocks, mutual and bond funds or money market funds. The retirement system is managed by five separate money managers, with oversight provided by a Retirement Board.

Risk Management. The risk management activities of the County are primarily the responsibility of the Administrator/Controller's office. However, each department head has a responsibility for managing the activities of their department in such a way as to preserve the human, physical, natural, and financial resources of the County.

The County is self-insured for property and liability, health care, unemployment, workers' compensation, and disability. Unemployment is totally self-insured, while workers' compensation is self-insured to a limit. Health care is self-insured with the administrative services of the program being performed by a third party. The County pays claims up to \$75,000 per contract per year, and purchases stop-loss protection for claims in excess of this limit. Disability is administered by a third party.

The County is a member of the Michigan Municipal Risk Management Authority for property and liability protection. The Authority is a large pool of Michigan government agencies with a goal of keeping costs down for the group. The County maintains various levels of risk for general and auto liability, physical damage to property and motor vehicle physical damage. Stop-loss protection is maintained to protect the County from very large claims. The liability deductible is \$250,000 with limits of reinsurance reaching \$15,000,000 per occurrence.

Pension and other post-employment benefits. The County sponsors a single-employer, defined benefit pension plan for all qualified employees. Each year an independent actuary calculates the percentage of payroll that the County should contribute to the pension plan to ensure that the fund will meet its full obligation to plan participants. During 2008, the County contributed \$4,312,555 (8.20-11.49% of covered payroll) and the employees

contributed \$2,392,071 (5% of covered payroll) to the plan. As of December 31, 2007, the date of the last actuary report, the plan was 97.3% funded.

Non-union employees and in several negotiated union contracts, new employees hired after January 1, 2009 will be members of a defined contribution pension plan where the county will match the employee contribution, up to a maximum of 8%. When all bargaining units are in this plan the defined benefit plan will effectively be closed to new participants.

The County also provides post-employment health and dental benefits for eligible retirees and their dependents. This plan is generally available to retirees who have attained the age of 55 or older (age 50 for certain employees in the Sheriff's Department) and have attained certain levels of service years. In 2008, the County contributed \$3,305,515 (1.51- 4.8% of covered payroll). In 2008, employees contributed \$173,792 to fund this benefit. Because of the radically increasing cost of health coverage the plan is not currently fully funded, however the County continues to work to implement certain changes in the benefits offered with the idea that costs will become more containable, and continues to pursue employee participation in the costs.

Relevant Financial Policies. The Board of Commissioner's has established policies regarding maintenance levels for fund balance in the General and Special Revenue Funds as follows:

The General Fund strives to maintain an Unreserved Fund Balance with a minimum amount of 10% and a maximum of 15% of the most currently approved General Fund budget. All Special Revenue Funds will maintain an Unreserved Fund Balance of 10% of the most currently approved budget.

Annually, at the conclusion of the annual audit, these Funds will be reviewed to determine if they are in compliance with the established policy. Any excess funds, other than those in separate millage supported funds and certain grant funds, will be reverted back to the General Fund. If the General Fund is at its maximum of 15% the excess funds will be transferred to the Budget Stabilization Fund, the Public Improvement Fund or be retained in the General Fund and be designated for future budget stabilization.

Awards and Acknowledgements

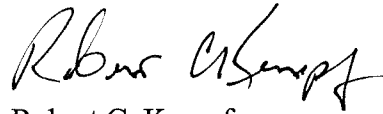

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to St. Clair County for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2007. This was our sixth consecutive award and our sixteenth award overall. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Administrator/Controller's office. We would like to express our appreciation to all members of the department, and various other departments, who assisted and contributed to the preparation of this report. We also express our gratitude to the Board of Commissioners for their interest and support in planning and conducting the financial operation and management of St. Clair County in a responsible and progressive manner.

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
of St. Clair County
Port Huron, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of St. Clair County, Michigan, as of and for the year ended December 31, 2008, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of St. Clair County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of St. Clair County, Michigan, as of December 31, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated June 19, 2009 on our consideration of St. Clair County, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 17, and schedules of funding progress, employer contributions and budgetary comparison on pages 89 through 97 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise St. Clair County's basic financial statements. The introductory section, combining and individual fund financial statements and schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining financial statements, individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied by us in the audit of the basic financial statements, and accordingly we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the County of St. Clair, we offer readers of our financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended December 31, 2008. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found preceding this narrative, and the accompanying basic financial statements and footnotes.

Financial Highlights

- The assets of the County exceeded its liabilities at December 31, 2008 by \$132,214,926. Of this amount \$36,837,825 may be used to meet the County's ongoing obligations to citizens and creditors. Additionally, \$29,403,722 has been restricted for specific purposes (ie. specific millage funds, substance abuse, revenue sharing, E-911, etc) and \$65,973,379 represents our investment in capital assets, net of related liabilities.
- The total net assets decreased by \$11,152,120 mainly due to the implementation of GASB Statement No 45 requiring governments to report the liability for other post employment benefits. The County also agreed to a settlement with the Detroit Edison Company regarding the taxable value of power plants that resulted in a refund of prior years taxes. The details of this settlement are described in Note 18 located on page 88.
- At December 31, 2008 the County's governmental funds reported combined ending fund balances of \$40,091,694, a decrease of \$10,431,780.
- In 2008 the General Fund reported revenues over expenditures of \$324,320 which increased the fund balance to \$8,471,491. Of this amount \$2,040,436 has been designated for a variety of issues, including \$2,000,000 for budget stabilization.
- In 2008 the Board of Commissioner's adopted a balanced budget for the 2009 General Fund.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are made up of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and

St. Clair County Management's Discussion and Analysis

liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused employee vacation leave).

The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The government activities of the County include legislative, judicial, general government, public safety, public works, health and welfare, community and economic development, recreation and culture, and debt service. The business-type activities of the County include the Airport, Sheriff's Concession, Solid Waste Disposal System, School Tax Collections, Homestead Exemption Audits, and the Delinquent Tax Revolving Funds.

The government-wide financial statements include not only the County itself (known as the primary government) but also a legally separate Community Mental Health Authority, a legally separate Road Commission, legally separate Drain Commissioner projects, and a legally separate Department of Public Works for which the County is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 18-20 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Governmental funds are reported using the modified accrual method of accounting. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Included are the General Fund, the Special Revenue funds, the Debt Service funds, the Capital Project funds and a Permanent fund.

St. Clair County Management's Discussion and Analysis

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains 32 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Health Department Fund, Parks and Recreation Fund, Library Fund, Revenue Sharing Reserve Fund, Senior Citizens Millage Fund, Mental Health Building Debt Fund and the Mental Health Building Construction Fund, all of which are considered to be major funds. Data for the other 24 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

As required by state law the County adopts an annual appropriated budget for its General and Special Revenue Funds. Budgetary comparison statements have been provided for these funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 21-26 of this report.

Proprietary funds. Proprietary funds use the accrual basis of accounting, which is the same basis used by private business. The County maintains two different types of proprietary funds.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the activities of the Airport, Solid Waste Disposal System, Delinquent Tax Revolving, Sheriff's Concession, School Tax Collections, and Homestead Exemption Audits funds. Internal Service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses an internal service fund to account for its various employee benefits and risk programs.

Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary financial statements provide separate information for the Solid Waste Disposal and Delinquent Tax Revolving Funds, both of

St. Clair County Management's Discussion and Analysis

which are considered to be major funds of the County. Individual fund data for the 4 non-major Enterprise Funds is provided in the form of combining statements elsewhere in this report. The County's only Internal Service Fund is presented in the proprietary fund financial statements in the Governmental Activities - Internal Service Fund column.

The basic proprietary fund financial statements can be found on pages 27-29 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The largest of the Fiduciary Funds are the County Employees Pension Fund, Other Employee Benefits Fund, the Landfill Perpetual Care Fund and the Trust and Agency Fund. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 30-31 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 35-88 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits to its employees and the budgetary information for six major governmental funds. This required supplementary information is found on pages 89-97 of this report.

The combining statements referred to earlier in connection with non-major governmental, enterprise and fiduciary funds are presented immediately following the required supplementary information. Combining, individual fund statements and schedules can be found on pages 98-122 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$132,214,926 at December 31, 2008.

The largest portion of the County's net assets represents our investment in capital assets, (e.g., land, buildings, machinery and equipment); less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other

**St. Clair County
Management's Discussion and Analysis**

sources, since the capital assets themselves cannot be used to liquidate these liabilities. The second largest portion of net assets is unrestricted and available for ongoing obligations to citizens and creditors. As noted earlier, a portion of net assets is restricted and subject to external restrictions as to how they may be used.

At the end of the fiscal year the County was able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The government's net assets decreased by \$11,152,120. About half of this decrease was due to the implementation of Government Accounting Standards Board Statement Number 45 requiring governments to record their liability for the cost of other post employment benefits (OPEB). Also contributing to the decrease was the cash settlement paid for prior year taxes as discussed earlier.

Governmental Activities. Governmental activities decreased net assets by \$9,767,959, thereby accounting for 87 percent of the total decrease. Key elements of this decrease are as follows:

- A tax tribunal settlement of \$4,157,064 for prior year taxes as discussed in Note 18 on page 88.
- The recording of OPEB expenses totaling \$5,081,167.

Business-type activities. Business-type activities decreased the County's net assets by \$1,384,161. This was primarily due to transfers made to the general fund to fund a portion of the tax tribunal settlement.

Financial Analysis of the County's Major Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At December 31, 2008, the County's governmental funds reported combined ending fund balances of \$40,091,694, a decrease of \$10,431,780 in comparison to the prior year. This decrease was primarily due to the construction of a mental health building. Most of this fund balance is unreserved (\$37,716,390), which is available for spending at the County's discretion. A total of \$2,682,093 of the unreserved fund balance has been designated for projects in the Parks (\$636,262) and future budget stabilization/various other items (\$2,045,831), leaving \$35,034,297 for current use. The remainder of fund balance (\$2,375,304) is reserved to indicate that it is not available for new spending because it has already been committed to prepayments, the construction of capital assets, debt service and the permanent funds.

The General Fund is the chief operating fund of the County. At December 31, 2008, the general fund reported an ending fund balance of \$8,471,491. Of that amount \$6,365,191 is unreserved/undesignated, \$2,040,436 is unreserved/designated for future budget stabilization and various programs and \$65,864 is reserved for prepaid expenses. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 13.5 percent and total fund balance represents 13.6 percent of 2008 total general fund expenditures, transfers and special items.

The General Fund balance increased by \$324,320 during the current fiscal year. Key factors in this growth are as follows:

- The implementation of a hiring policy which reviews each employment vacancy to determine if it needs to be refilled. As a result positions have remained vacant longer.
- An increase in the amount charged to other funds for cost allocation.

The Health Department reported fund balance of \$1,189,226 at December 31, 2008. Of that amount \$1,174,140 is unreserved/undesignated. Revenues and transfers in were reported at \$9,268,344 along with expenditures and transfers out of \$9,311,585. Fund balance decreased \$43,241 over the prior year. The fund balance was budgeted to decrease \$341,150 over the prior year. A less than budgeted decrease was due to matching expenditures with reduced revenue.

St. Clair County Management's Discussion and Analysis

The third major governmental fund is the special millage Parks and Recreation Fund. At December 31, 2008, Parks and Recreation reported a fund balance of \$3,612,553. Of this amount, \$2,976,291 is available for operations of the park system and future development and \$636,262 has been designated for specific projects. Fund balance decreased \$12,469 over the prior fiscal year due to the refund of taxes paid in the tax tribunal settlement.

The fourth major governmental fund is the special millage Library Fund. It reported \$1,813,964 in fund balance at December 31, 2008. All of this amount is undesignated and available for operations of the County library system. In 2008 the Library operated on revenues and transfers of \$5,475,365 and expenditures of \$5,292,992. Fund balance decreased \$163,152 over the prior fiscal year due to the refund of taxes paid in the tax tribunal settlement.

The fifth major governmental fund is the Revenue Sharing Reserve Fund. This fund accounts for the additional tax levy as required by the State of Michigan. Annually, an amount will be transferred from this fund to the General Fund to replace the state revenue sharing program suspended by the state. At December 31, 2008, this fund had \$16,518,625 in unreserved/undesignated fund balance. This fund transferred \$3,587,297 to the General Fund in 2008.

The sixth major governmental fund is the special millage Senior Citizens fund. It reported \$768,106 in fund balance at December 31, 2008. All of this amount is available for operations. This fund decreased \$330,236 over the prior year primarily due to the refund of taxes paid in the tax tribunal settlement.

The seventh major governmental fund is the Mental Health Building Debt Fund. It reported a fund balance of \$1,585 at December 31, 2008. This fund accounts for the payment of debt as well as monies received from Community Mental Health to reimburse the County for the debt payment.

The last major governmental fund is the Mental Health Building Construction Fund. It had a fund balance at December 31, 2008 of \$291,866 which is all reserved for the construction of a new mental health building. Fund balance decreased \$7,242,308 over the prior year as construction on the new facility was completed.

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The County had two major proprietary funds at December 31, 2008.

Net assets in the Solid Waste Disposal System at the end of the year amounted to \$15,856,395, of this amount \$11,484,394 is invested in capital assets. Net assets decreased \$2,245,158 over the prior year due to transfers to the General Fund to fund the refund of taxes paid due to the tax tribunal settlement and a transfer to the Road Commission.

The Delinquent Tax Revolving Fund reported net assets of \$25,992,093, an increase of

St. Clair County
Management's Discussion and Analysis

\$980,265 over the prior year. A portion of the earnings in this fund are dedicated to the annual debt payment requirements of the bond secured for the construction of the Jail/Juvenile facility.

General Fund Budgetary Highlights

During the year the original budget was amended as needed. The original budget was balanced, while the final amended budget represents a gain of \$293,026. The 2008 amended budget of the General Fund had revenues and transfers in of \$59,363,035 and expenditures and transfers out of \$59,070,009. Included in the transfers out were appropriations to several funds that depend on the General Fund for operational funds.

Overall during the year the budget was adjusted as follows: the revenues and transfers in were adjusted up by \$1,440,311 (2.5%) and the expenditures and transfers out were adjusted up by \$1,147,285 (2%). Major changes can be summarized as follows:

- Intergovernmental revenues increased due to various grants received throughout the year, and expansion in revenues received for housing federal inmates in our jail, as well as a merger of emergency dispatch operations with the City of Port Huron.
- Interest and rent revenues were decreased due to falling interest rates.
- Tax revenues were decreased to reflect declining property tax collections.
- Transfers in were increased to add excess fund balance swept from special revenue funds.
- Expenditures: were increased primarily to account for the expenditure side of grants received, additional costs associated with the merger of dispatch operations with the City of Port Huron, contracts for inmate services in the jail, and an expansion of jail bed space to accommodate federal inmates.
- Transfers out were increased due to a transfer to the Public Improvement Fund to pay for facility projects and an additional transfer to the Child Care Fund for half the value of cost allocation not covered by the State.

Amended revenue and transfer-in budgets differed by \$3,091,063 of actual revenues and transfers-in. Significant differences between the amended budgets and actual results for revenues were as follows:

- Actual transfers in were greater than the amended budget due to the effects of the refund owed in the tax tribunal settlement. Additional funds were transferred in from the Revenue Sharing Reserve Fund, the Delinquent Tax Fund as well as the Landfill fund. Current tax revenues were also affected by this settlement.
- Federal/State revenues were \$ 307,555 less than the amended budget due to the timing of payments received by the State. These revenues had to be reported as deferred at year end.
- Charges for Services were greater than the amended budget by \$240,714

St. Clair County Management's Discussion and Analysis

- primarily due to higher than expected collections for jail inmate board and care as well as associated telephone use fees.
- Other revenues were \$117,844 higher than the amended budget primarily due to reimbursements for election costs.

Expenditures and transfers-out, including the special item, differed \$3,059,769 of actual expenditures and transfers-out. Significant differences between the amended budgets and actual results for expenditures in the departments are as follows:

- Many departments were under their amended budgets due to positions held vacant through out the year due to a new hiring freeze policy implemented during the year.
- Other Legislative Activities was under its amended budget by \$203,954 due to less than anticipated legal costs for the defense of contested property taxes.
- Circuit Court was under its amended budget by \$140,298 due to lower than anticipated court appointed attorney costs.
- Buildings and Grounds was under its amended budget by \$172,687 due to cost savings measures implemented to save on energy costs. Also contributing to this savings was a reduction in maintenance services due to the hiring of a master electrician.
- The Sheriff was over his amended budget by \$176,768 due to overtime costs as well as fuel and vehicle repair costs.
- Other Corrections Activities were under its amended budget by \$214,529 to match spending with grant dollars received.
- Corrections/Jail was over its amended budget by \$444,237 due to wage and overtime costs.
- Road Commission was over budget by \$600,000 due to a transfer to the Road Commission. There was a corresponding transfer in from the Landfill Fund to cover this cost.
- A special item was recorded due to a refund owed in the tax tribunal settlement.

Capital Asset and Debt Administration

Capital Assets. The County's investment in capital assets for its governmental and business-type activities as of December 31, 2008, amounted to \$108,463,963 (net of accumulated depreciation). This investment in capital assets includes land, buildings, land improvements, machinery and equipment, vehicles and infrastructure (e.g., roads, drains, etc). The total decrease in the County's capital assets for the current fiscal year was \$1,518,944 or 1.4%. The governmental activities recorded a 1.2% decrease and the business-type activities had a 2.3% decrease.

Major capital asset events during the year included the following:

- The Solid Waste Disposal System continued significant projects at the Landfill that included construction of a new disposal cell and a bioreactor.
- The construction of pavilions and play structures at County parks.
- Property purchased by the Parks and Recreation Department for Woodsong County Park.
- Replacement of various county vehicles.
- Addition of books to the County library collection.

Additional information on the County's capital assets can be found in Note 5 beginning on page 53 of this report.

Long-term Debt. At December 31, 2008, the County had total debt outstanding of \$72,417,560, which was an increase of \$4,287,412.

St. Clair County Management's Discussion and Analysis

Significant portions of the debt include the following:

- The general obligation bonds (Series A) sold in 2007 to construct a Mental Health Authority building (\$10,325,000).
- The general obligation bonds (Series B) sold in 2007 for the cost of acquiring and installing equipment related to 911 services (\$3,400,000).
- The general obligation bonds sold in 2003 to finance the construction of the Jail/Juvenile facility (\$30,600,000).
- In accordance with Governmental Accounting Standards Board Statement No. 45 an obligation for other post employment benefits has been recorded in the amount of \$5,123,297.
- The County operates the Smiths Creek Landfill and is required to record the estimated costs of closure and the post-closure costs of the Landfill to ensure that when the facility is closed in the future there will be sufficient funds available to maintain it in an environmentally sound way. The amount recorded for this obligation is \$8,769,616 at December 31, 2008.
- Upon their leaving County employment, certain employees of the County have, through collective bargaining agreements or policy, rights to be paid outstanding balances of accrued vacation, sick time, or compensatory time earned. This amount at December 31, 2008 is \$4,890,572.

Additional information on the County's long-term debt can be found in Note 9 beginning on page 63 of this report.

Economic Factors and Next Year's Budgets and Rates

Many factors were considered in preparation of the County's budget for the 2009 fiscal year. Several of the more telling factors are as follows:

- The unemployment rate for the County is currently around 16.5 percent, which is an increase over a year ago, and is slightly higher than the state average.
- Inflationary trends in the region compare favorably to national indices.
- Population projections continue to outpace the rest of the southeastern Michigan region.
- The continued uncertainty of state funding for programs throughout the County.
- Declining housing sales and increased foreclosures causing property values to decrease in total.
- Funding for economic development initiatives to locate new businesses and jobs in our county.

The 2009 budgets are currently balanced and the Board of Commissioner's will approve any amendments, as needed.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Reporting Entity –

The County of St. Clair, Michigan was organized on March 28, 1820, and covers an area of approximately 700 square miles, with the County seat located in the City of Port Huron, Michigan. The County operates under an elected Board of Commissioners (7 members) and provides services to its approximately 165,000 residents in many areas including law enforcement, administration of justice, community enrichment and development, public works, health and welfare, and recreation and culture.

These financial statements present the County and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the County.

BLENDED COMPONENT UNIT –

ST. CLAIR COUNTY BUILDING AUTHORITY - was formed for the purpose of constructing and financing the Library and Public Service Buildings and any additional facilities, which require financing. The main function of the Authority at the present time is to pay off the building bonds. The three member Board is appointed by the Board of Commissioners, and the County is fiscally responsible for the Authority. As a result, the Authority has been included as a blended component unit.

DISCRETELY PRESENTED COMPONENT UNITS –

ST. CLAIR COUNTY ROAD COMMISSION - The St. Clair County Road Commission maintains local, state and federal trunklines within St. Clair County. The Road Commission operations are financed primarily from the State distribution of gas and weight taxes, federal financial assistance and contributions from other local governmental units within the County. The Road Commission operates under a Board, which consists of three commissioners who are appointed by the County Commissioners. The Road Commission is financially accountable to the County for the following reasons; the County is secondarily obligated to provide repayment of a material loan through the State of Michigan, and all general long-term debt issuance, excluding capital lease purchase agreements, requires County authorization.

ST. CLAIR COUNTY DEPARTMENT OF PUBLIC WORKS - The Department of Public Works has the responsibility of administering the various Public Works Project Construction and Debt Service Funds under the provision of Act 185, Public Acts of 1957, as amended, as well as the DPW Revolving, Utility Operations and Maintenance Receiving and Wastewater Treatment Funds. The DPW operates under a Board, which consist of three commissioners, who are appointed by the County Commissioners. The County Commissioners must authorize and approve any long-term debt issued by the DPW and are secondarily responsible for all operations and obligations.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

DRAINAGE DISTRICT - The St. Clair County Drain Commissioner is solely responsible for the administration of the drainage districts established pursuant to Act 40, P.A. 1956, as amended, of the Michigan Drain Code. The statutory Inter-County Drainage Boards consists of the State Director of Agriculture and the Drain Commissioners of each County involved in the projects. Each of the drainage districts are separate legal entities. The Drainage Board or Drain Commissioners, on behalf of the drainage district, may issue debt and levy special assessments authorized by the Drain Code without the prior approval of the County Board of Commissioners. The Drain Commission and all operations for the Drain Commission office are budgeted and reported as part of the County General Fund, except for maintenance and construction of individual drains, which is accounted for through the various drain funds. Maintenance and construction of individual drains are assessed to the benefit property owner. The full faith and credit of the County may be given for the debt of the drainage district upon authorization of the County Board of Commissioners.

ST. CLAIR COUNTY COMMUNITY MENTAL HEALTH AUTHORITY - On January 1, 2000 the St. Clair County Community Mental Health Services Board adopted Authority status under Public Act 290 of the Public Acts of 1995. The County Board of Commissioners appoints the 12-member board, can remove the appointed members at will, can dissolve the Authority and provides annual appropriations to the Authority.

COMPONENT UNIT FINANCIAL STATEMENTS - Complete financial statements of the St. Clair County Road Commission, St. Clair County Department of Public Works and the St. Clair County Community Mental Health Authority are audited separately and may be obtained from the administration offices at the following locations:

St. Clair County Road Commission
21 Airport Drive
St. Clair, MI 48079

St. Clair County Department of Public Works
21 Airport Drive
St. Clair, MI 48079

St. Clair County Community Mental Health Authority
3111 Electric Avenue
Port Huron, MI 48060

The funds associated with the activities of the drainage districts administered by the St. Clair County Drain Commissioner are included within the scope of the audit of the basic financial statements. Separate audited financial statements for this component unit were not issued.

FISCAL YEAR ENDS - All of the County Funds and Component Units operate and are reported on a December 31 year-end with the exception of the St. Clair County Community Mental Health Authority, which operates and is reported as of September 30.

ST. CLAIR COUNTY, MICHIGAN

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

B. Government-wide and fund financial statements –

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation –

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary funds and fiduciary fund financial statements. (Agency funds, a type of fiduciary fund, are unlike all other types of funds, reporting only assets and liabilities. Agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.) Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 90 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

State shared revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and therefore have been recognized as revenues of the current fiscal period. Property taxes are recognized as revenue in the year for which they are levied. Also only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County reports the following major governmental funds:

General Fund – is the County’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Health Department Fund – is used to account for the operations of providing health protection and health services. Financing is provided by state and federal grants, charges for services and general fund appropriations.

Parks and Recreation – is used to account for county special millage to be used to expand and enhance our park system.

Library – is used to account for the operations of the Public Library.

Revenue Sharing Reserve – is used for the collection of tax revenues for the replacement of State Shared Revenues.

Senior Citizens Millage – is used to account for a County special millage to be used for senior citizens’ activities.

Mental Health Building Debt – is used to account for the debt service requirements related to the construction of a Community Mental Health Building.

Mental Health Building Construction – is used to account for the bond proceeds and construction of a Community Mental Health Building.

The County reports the following major proprietary funds:

Solid Waste Disposal System – is used to account for the operations of the County-owned landfill, which provides a disposal area for County commercial and residential refuse.

Delinquent Tax Revolving Fund – is used to account for the payment to each local unit of government within the County of the delinquent real property taxes outstanding as of March 1, of each year. The fund is also used to account for the collection of those delinquent taxes along with penalties and interest.

Additionally, the government reports the following fund types:

Special Revenue Funds – are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specific purposes.

ST. CLAIR COUNTY, MICHIGAN

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

Debt Service Funds – are used to account for the accumulation of resources for, and the payment of, principal and interest on long-term debt of government funds.

Capital Project Funds – are used to account for financial resources to be used for the acquisition or construction of major capital projects (other than those financed by Proprietary and Trust Funds).

Internal Service Fund – is used to account for the charges for services from funds and departments for self-funded disability, unemployment, workers compensation and health care, and to account for the payment of related insurance claims and expenses.

Pension Trust and Other Employee Trust Funds – are used to account for activity of the Employee's Retirement System, which accumulates resources for pension and health benefits payments for qualified retirees.

Private Purpose Trust Fund (Landfill Perpetual Care) – is used to account for the accumulation of statutory fees and interest earnings to be used by the State of Michigan to safely maintain the landfill after the closure.

Agency Funds – are used to account for assets held by the County as an agent for individuals, private organizations, other governments, and other funds, including tax collection.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for the business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal on-going operations. The principle operating revenues of the Enterprise and Internal Services Funds are charges to customers for sale and services. Operating expenses from Enterprise and Internal Service Funds include costs of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, and the unrestricted resources as they are needed.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

D. Assets, Liabilities and Net Assets or Equity –

Deposits and Investments –

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and certificates of deposit with original maturities of three months or less from the date of acquisition. The investment trusts have the general characteristics of demand deposit accounts in that the County may deposit additional cash at any time and effectively may withdraw cash at any time without prior notice or penalty, and are reported as cash and cash equivalents.

Investments are stated at fair value, which is determined as follows: (a) short-term investments are reported at cost, which approximates fair value; (b) securities traded on a national or international exchange are value at the last reported sales price at current exchange rates; (c) investments that do not have established market values are reported at estimated fair value; and (d) cash deposits are reported at carrying amount which reasonably approximates fair value.

State statues authorize the County to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments (except those with a fluctuating per share value).

Receivables and Payables –

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectible accounts.

Inventories and Prepaid Items –

All inventories are valued at cost using the first in/first out (FIFO) method, except for the Road Commission (component unit) inventory that is stated at average cost. Inventories of governmental funds are recorded as expenditures when purchased, except the Road Commission, which is recognized using the consumption method (recorded as expense when used).

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide statements.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

Property Tax Calendar –

The property taxes for the County’s general fund are levied on July 1 (the lien date), with all special purpose taxes levied on December 1 (the lien date), based on the taxable value of property located in the County as of the proceeding December 31, by the various municipalities within the County. The July 1 taxes are due on or before September 15 and the December 1 taxes are due on or before February 15. The general fund levy is recognized in the year of the levy. The special purpose taxes that are levied on December 1 are recorded as a receivable and deferred since they are budgeted as revenues in the subsequent year. For the year the County levied 5.3265 mills for the General Fund, .4954 mills for Parks and Recreation, .7000 mills for Library, .5000 mills for Senior Citizens and .2803 mills for Drug Task Force.

Capital Assets –

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. For the County, infrastructure exists in the Road Commission and Drain Commission component units. The government defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years, except for the St. Clair Department of Public Works and the St. Clair County Road Commission, which capitalize assets with an individual cost of \$1,000 or more. The Road Commission also capitalizes road equipment without consideration of a minimum cost. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives, with the exceptions for certain landfill assets, which are depreciated based on the usage method and road equipment, which is depreciated based on the sum of the years digits method:

Compensated Absences –

In accordance with contracts negotiated with the various employee groups of the County, individual employees have vested rights upon termination of employment to receive payment for unused vacation and sick leave under formulas and conditions specified in the contracts. All vested vacation and sick leave is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for this amount is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

ST. CLAIR COUNTY, MICHIGAN

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont'd):

Long-Term Obligations –

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net assets. Bond premiums and discounts, as well as issuance costs, if significant, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financial uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Equity –

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Estimates –

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Federal Programs –

Federal Programs are accounted for in specific Special Revenue Funds or as part of the various fund types to which the programs pertain. The County has not integrated its Single Audit Reports and Schedule of Expenditures of Federal Awards as part of the Annual Financial Report. The Single Audit will be issued prior to August 31, 2009, under separate cover as supplementary information to the Annual Financial Report.

Adoption of GASB 45 –

In the current year, the County implemented the Governmental Accounting Standards Board's Statement No. 45, *Accounting and Reporting by Employers for Postemployment Benefits Other Than Pensions*. This pronouncement provides guidance for local units of government in recognizing the cost of retiree health care, as well as any "other" postemployment benefits (other than pensions). Because of this pronouncement, the government-wide financial statements and proprietary-type funds now recognize the cost of providing these other postemployment benefits over the working life of the employee, rather than at the time the expenses are paid.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY:

Budgetary Information –

The General and Special Revenue Funds budgets shown in the financial statements were prepared on a basis consistent with accounting principles generally accepted in the United States of America. The County employs the following procedures in establishing the budgetary data reflected in the financial statements.

- 1) Prior to November 1, County departments, in conjunction with the Controller's Office, prepare and submit their proposed operating budgets for the calendar year commencing the following January 1. The operating budgets include proposed expenditures and resources to finance them.
- 2) A Public Hearing is conducted to obtain taxpayers' comments.
- 3) Prior to December 31, the budgets are legally enacted through passage of a Board of Commissioner's resolution.
- 4) The budgets are legally adopted at the activity level for the General Fund and the functional level for the Special Revenue Funds; however, for control purposes the budgets are maintained at the account level.
- 5) Formal budgetary integration is not employed for the Debt Service or Capital Projects Funds on an annual basis because effective budgetary control is achieved through project length financial plans.
- 6) After the budgets are adopted, the Administrator/Controller's Office is authorized to transfer budget amounts between accounts. Any revisions that exceed the total activities or functions as applicable must be approved by the Board of Commissioners.
- 7) The County does not employ encumbrance accounting as an expansion of formal budgetary integration in the governmental funds. All unexpended appropriations lapse at year-end.
- 8) Budgeted amounts are reported as originally adopted, or as amended by the Board of Commissioners during the year.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - (cont'd):

Similar procedures are followed in the case of the Component Units included in the Reporting Entity of St. Clair County, except that the respective Administrator/Director of each performs the function described above rather than the County Administrator. Budgetary comparisons have not been made for the component unit financial statements but are available in their separately issued component unit financial statements; however, a summary of expenditures in excess of appropriations for the Component Units budgetary funds is included below.

NOTE 3 - DEPOSITS AND INVESTMENTS:

Authorized Deposits and Investments –

Investments are carried at cost or fair value as explained in Note 1, and are deposited in the name of the St. Clair County Treasurer. Act 217 PA 1982 as amended authorizes the County to deposit in certificates of deposit, savings accounts, depository accounts or depository receipts of a state or nationally chartered bank or a state or federally chartered savings and loan association, savings bank or credit union whose deposits are insured by an agency of the United States government and which maintains a principal office or branch office located in this State under the laws of this State or the United States, but only if the bank, savings and loan association, savings bank or credit union is eligible to be a depository of surplus funds belonging to the State under Section 5 or 6 of Act 105 of the Public Acts of 1855, as amended, being section 21.145 and 21.146 of the Michigan Compiled Laws.

Investments, except those of the Retirement System are administered by the Treasurer under guidelines established by Act 20 of the Michigan Public Acts of 1943, as amended and the Investment Policy as adopted by the County's Board of Commissioners. The County's Investment Policy allows for the following instruments:

- 1) Bonds, securities, and other obligations of the United States or an agency or instrumentality of the United States.
- 2) Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a financial institution, but only if the financial institution is eligible to be a depository of funds belonging to the state under a law or rule of this state or the United States.
- 3) Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase. Not more than 50% of County funds shall be invested in commercial paper.
- 4) Repurchase agreements consisting of instruments listed in (1) above.
- 5) Bankers' acceptances of United States banks, with a maturity date not to exceed 270 days. Not more than 50% of County funds shall be invested in banker's acceptances.
- 6) Obligations of this state or any of its political subdivisions that, at the time of purchase, are rated as investment grade by not less than one standard rating service.
- 7) Mutual funds registered under the Investment Company Act of 1940, title I of chapter 686, 54 Stat. 789, 15 U.S.C. 80a-1 to 80a-3 and 80a-4 to 80a-64, with authority to purchase only investment vehicles that are legal for direct investment by a public corporation. This authorization is limited to securities whose intention is to maintain a net asset value of \$1.00 per share.
- 8) Obligations described in (1.) through (7.) above if purchased through an interlocal agreement under the Urban Cooperation Act of 1967, 1967 (Ex Sess) PA7, MCL 124.501 to 124.512.
- 9) Investment pools organized under the Surplus Funds Investment Pool Act, 1982 PA 367, MCL 129.111 to 129.118.
- 10) Investment pools organized under the Local Government Investment Pool Act, 1985 PA 121, MCL 129.141 to 129.150.

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 3 - DEPOSITS AND INVESTMENTS - (cont'd):

Deposits with Financial Institutions –

The County has deposits and investments, which are maintained for its primary government, component units, and fiduciary fund types.

Michigan Public Acts authorize the units of local government in Michigan to deposit in the accounts of federally insured banks, insured credit unions, and savings and loan associations. All deposits of the County are at federally insured banks in the State of Michigan in the name of the County.

Custodial Credit Risk - Deposits - Custodial credit risk for deposits is the risk that in the event of a bank failure, the County's deposits may not be returned. As an indication of the level of deposit custodial credit risk assumed by the County, as of December 31, 2008, the book value of the County's deposits was \$94,618,339 with a corresponding bank balance of \$96,224,941. Insured deposits were \$7,959,523, and collateralized were \$41,414,443 with the remaining \$46,850,975 uninsured, uncollateralized, and in the County's name.

The County's Investment Policy allows for the use of bank deposits including certificates of deposit. The County's investment policy does not address custodial credit risk for deposits.

An element of the County cash structure is the common account, which is utilized by most of the funds and component units within the reporting entity. Segregation of the bank balance between the primary government and component units was not practical. The bank balance of the common checking account was included as part of the primary government's demand deposits for the determination of FDIC insurance coverage.

The County believes that due to the dollar amounts of cash deposits and the limits of FDIC Insurance, it is impractical to insure all bank deposits. As a result, the County evaluates each financial institution and assesses the level of risk. The County uses only those financial institutions with an acceptable estimated risk level as depositories.

Investments (Excluding Retirement)

Credit Risk - Investments - The County has \$9,005,669 excluding retirement, invested in investment trust funds that invest primarily in U.S. Treasuries, U.S. Agencies, repurchase agreements, and commercial paper. The County's investment policy does not specifically address credit risk for investments. The investment trusts have been rated as follows:

	<u>Amount</u>	<u>Rating</u>	<u>Rating Agency</u>	<u>Average Days to Maturity</u>

NOTE 3 - DEPOSITS AND INVESTMENTS - (cont'd):

Custodial Credit Risk - Investments – is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments that are in possession of another party.

The securities of the pool are safe kept with a third party selected by the counterparty. However, the pool's securities are held in trust for the participants of the fund that are not available to the counterparty if the counterparty should happen to fail. The County's investment policy does not limit the amount of securities that can be held by counterparties.

Concentration of Credit Risk - Investments - is the risk of loss attributed to the magnitude of the County's investment in a single issuer. The County's formal investment policy attempts to minimize risk by diversifying its investments by maturity dates, individual financial institutions, and/or security type, so that potential loss on individual securities do not exceed the income generated from the remainder of the portfolio. However, the County's policy does not restrict the amount that can be invested with any one issuer, financial institution or type of investment.

Interest Rate Risk - Investments – Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The County's investment policy specifies investments should yield a rate of return commensurate with a recognized level of risk for like investments. Also, the County's investment portfolio should be designed with the specific objective of attaining a market rate of return through the various economic cycles, taking into account the County's investment risk, legal constraints on investments, county policy constraints on investments, and cash flow requirements. At year-end, the County's investments have the following range of maturity dates:

<u>Investment Types</u>	<u>Fair Value</u>	<u>Maturity (Years)</u>	
		<u><1</u>	<u>1-2</u>
Investment Trusts -			
Primary Government	\$ 4,808,008	\$ 4,808,008	\$ -

Component Units	13,456,291	13,456,291	-

(1) Certificates of Deposit were presented to give an overall view of associated interest rate risk.

Investments – Retirement System

The Retirement System investments are made in accordance with Act 314 of the Michigan Public Acts of 1965, as amended, as well as the Investment Policy adopted by the Board of Trustees of the St. Clair County Employees' Retirement System. Investments in stock are limited to no more than 70% of the system's assets. Additionally, investments must comply with the following guidelines:

US Large Cap Equities – No more than 5% of the outstanding securities of one issuer, nor more than 7% of the portfolio's assets in the outstanding securities of one issuer. No more than three times the sector weighting of the S & P 500 Index and a maximum weighting of 25% of the index weight, whichever is greater, invested in any one industry sector.

US Small/Mid Cap Equities - No more than 5% of the outstanding securities of one issuer, nor more than 7% of the portfolio's assets in the outstanding securities of one issuer. No more than three times the sector weighting of the Russell 2500 Index and a maximum weighting of 25% of the index weight, whichever is greater, invested in any one-industry sector.

International Equities – No more than 25% of the portfolio in emerging market countries.

US Intermediate Fixed Income – No more than 5% may be invested in one issuer, except Treasury and Agency securities. All debt securities must have a quality rating of Baa/BBB or above by at least two of the major rating agencies.

Pension investments are made through the use of Investment Advisors, which are selected and retained by the Retirement Board. The advisors serve at the leisure of the Retirement Board as provided by investment agreements. At December 31, 2008 the Retirement System had five investment advisors. As of December 31, 2008, the County had the following investment types in its Retirement System:

Credit Risk - The Board's adopted Statement of Investment Policies and Objectives states that all debt securities, except Treasuries and Agencies, must have a quality rating of Baa/BBB or above by at least two of the major rating agencies at the time of issue and the overall rating of the portfolio should be AA or better. Any security held in the portfolio that drops below that investment grade shall be reported to the Retirement Board immediately along with a proposed plan of action. As of December 31, 2008, investments held in the Retirement System excluding investment trusts, U.S. government securities, mutual funds, equity funds, and stocks had the following Standard & Poors ratings:

Custodial Credit Risk - The risk that, in the event of a failure of the counterparty, the Retirement System would not be able to recover the value of its investments that are in the possession of another side party. The Retirement System's Investment Policy requires that all investment transactions shall be conducted through a custodian that will act as the system's third party. Securities shall be held by the custodian, as designated by the Retirement Board, and shall be evidenced by a custodial report. As of December 31, 2008, \$151,243,667 in investments was held in third party safekeeping in the County's name.

Concentration of Credit Risk - The Board's Investment Policy states that no more than 5% of the Retirement System's assets may be invested with one issuer, except US Treasuries and Agencies, which have no limitation. The system did not hold 5% or more in any one issuer.

NOTE 3 - DEPOSITS AND INVESTMENTS - (cont'd):

Interest Rate Risk - The Board's adopted Statement of Investment Policy and Objectives places no limitation on the system's fixed income manager on the length to maturity for fixed income investments. The system's fixed income investments had lengths of maturities ranging from one month to forty years, which is reasonable given the long-term nature of the system. Having staggered maturities will reduce the retirement system's risk exposure to rising interest rates. As of December 31, 2008, the Retirement System's investments had the following maturities:

Investment	Fair Value	Years			
		<1	1-5	5-10	10>

The agreement calls for fixed annual payments of \$157,652 and additional per copy charges based on usage. The operating lease expires April 1, 2010, with an option to extend the contract for an additional two years. The entire cost of the contract is not to exceed \$1,120,000. The County has the option to terminate the contract with 90 days notice. The noncancellable portion of the contract is \$39,413.

Lessor Leases - The County has also entered into an operating lease agreement with the State of Michigan to lease approximately 49.3% (33,694 square feet) of the County Administration Building. The agreement calls for annual rent payments of \$727,316 per year with an adjustment based on actual operating cost after the end of each year. The original lease is for 25 years ending July 31, 2022 with an option to rent for an additional five years. However the lease may be cancelled by the State for various reasons with at least 90 days notice. The noncancellable portion of the lease is \$181,829.

NOTE 8 - LEASES - (cont'd):

The County has also entered into a capital lease agreement with the Community Mental Health Authority, a component unit of the County, for the use of the new Community Mental Health building. Under this agreement, the County issued bonds that were used for the construction of the facility. The Authority has agreed to pay the County the amount necessary to pay the principle, interest, and paying agent fees as they come due. Upon final payment of the respective bond issue, ownership of the building will revert to the Community Mental Health Authority. The building asset has been recorded in the financial statements of the Community Mental Health Authority.

The future minimum lease payments to be received are as follows:

Lessor Leases - The DPW (County) has entered into a number of capital lease agreements with various municipalities within the County. Under the agreements, the DPW (County) issued bonds or obtained loans that were used for the construction of water and/or sewage disposal systems. The municipalities agreed to pay the DPW (County) the amount necessary to pay the principal, interest and paying agent fees as they come due. Upon final payment of the respective bond issue or loans, ownership of the system will revert to the respective municipality. Therefore, the County has recorded no assets relating to these projects.

Significant details regarding outstanding long-term debt (including current portions) are presented as follows:

2007 General Obligation Bonds, Series A -

The County issued \$10,490,000 of General Obligation limited Tax Bonds, Pursuant to the provisions of Act 34, Public Acts of Michigan. The bonds are being issued for the cost of acquiring, constructing, and equipping a new consolidated office building to house the Mental Health Authority administrative staff and direct operated programs. The bonds, dated April 1, 2007, are due in annual installments from \$200,000 to \$950,000 through April 1, 2026 with interest ranging from 4.0% to 4.5% payable semi-annually.

\$ 10,325,000

2007 General Obligation Bonds, Series B -

The County issued \$3,500,000 of General Obligation limited Tax Bonds, Pursuant to the provisions of Act 34, Public Acts of Michigan. The bonds are being issued for the cost of acquiring and installing equipment related to 911 services located in the County. The bonds, dated April 1, 2007, are due in annual installments from \$100,000 to \$425,000 through April 1, 2021 with interest ranging from 4.0% to 4.5% payable semi-annually.

NOTE 9 - LONG-TERM DEBT - (cont'd):

Building Authority Bonds -

The Building Authority issued \$9,625,000 of general obligation limited tax refunding bonds to provide resources to purchase U.S. Government, State and Local Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$9,100,000 of general obligation limited tax bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed for the governmental activities column of the statement of net assets. The reacquisition price exceeded the net carrying amount of the old debt by \$994,007. This amount is being netted against the new debt and amortized over the remaining life of the refunding debt, which is shorter than the life of the new debt issued. This advance refunding was undertaken to reduce the total debt service payments over 16 years by \$369,426 and resulted in an economic gain of \$271,928.

\$ 8,450,000

General Obligation Tax Note -

The County issued \$34,000,000 of General Obligation Limited Tax Bonds, pursuant to Act 34, Public Act of Michigan. The notes are for the design and construction of a jail and juvenile facility. The bonds, dated June 4, 2003, are due in annual installments increasing from \$800,000 to \$2,450,000 through April 1, 2028; plus interest ranging from 2.5 to 4.5 percent, payable semi-annually.

\$ 30,600,000

Drain Districts -

The St. Clair County Drain Commission has made improvements to various drains and levied multi-year assessments against the County.

\$ 772,882

Installment Contract -

In April 2005, the County entered into a purchase agreement for software in the amount of \$162,335. The agreement calls for a final annual payment of \$40,584 in January 2009 with no interest (the imputed interest was insignificant).

\$ 40,584

Accrued Insurance Claims -

The County has estimated the accrued claims for general and auto liability, motor vehicle physical damage and property, including estimates for claims incurred but not reported (IBNR), at December 31, 2008. The dollar amount of these claims are reflected on the Balance Sheet of the Self-Insurance Fund, including the current portion of \$220,000.

Accrued Worker's Compensation Claims -

The County has estimated accrued outstanding workers' compensation insurance claims, including an estimate for claims incurred but not reported (IBNR), at December 31, 2008. The dollar amount of these claims is reflected on the Balance Sheet of the Self-Insurance Fund, including the current portion of \$126,000.

\$ 211,000

Accrued Vacation, Sick and Compensatory - In accordance with contracts negotiated with the various employee groups of the County, individual employees have vested rights upon termination of employment to receive payments for unused vacation, sick and compensatory leave under formulas and conditions specified in the contracts. The Enterprise Funds portion of \$41,835 has been recorded as a long-term liability of the respective funds. The governmental fund portion of \$4,848,737, as well as the enterprise fund portion, has been recorded in the government-wide financial statements as a long-term liability. The governmental fund portion is generally liquidated by the General Fund or the fund where the employee is charged.

Other Postemployment Benefits - In accordance with Governmental Accounting Standards Board (GASB) Statement No. 45, the Net OPEB Obligation as reported in the proprietary funds and governmental activities fund amounts to \$5,123,297. See Note 11 for additional information.

Post-Closure Care Landfill Costs - In accordance with the Governmental Accounting Standards Board (GASB) Statement 18, the post-closure care landfill liability at December 31, 2008, as reported in the Enterprise Funds (Landfill Fund), amounts to \$8,769,616. See Note 17 for more details regarding this matter.

Annual Debt Requirements - The annual requirements to pay the debt outstanding at December 31, 2008, for the following bonds and notes (excluding accrued vacation, sick and compensatory, accrued insurance claims, other postemployment benefits and closure and post-closure costs) of the Primary Government are as follows:

General Obligation Bonds

General Obligation Bonds have been issued by the County to construct several water supply and sewage disposal systems for various townships, villages and cities in the County. The County in turn is leasing the systems to the various municipalities who operate, maintain and manage the systems. The bonds were sold with the full faith and credit of the Townships, Villages, Cities, and County pursuant to Act 185, Public Acts of Michigan, 1957, as amended. The original amount of the general obligation bonds issued in prior years was \$31,215,000.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 9 - LONG-TERM DEBT - (cont'd):

The principle and interest on the bonds are to be paid out of money received from the various municipalities by the Board of Public Works pursuant to the lease agreements. Upon final payment of the bond issues, ownership of the systems reverts to the Townships, Villages or Cities. General Obligation Bonds currently outstanding are as follows:

<u>Purpose</u>	<u>Interest Rate</u>	
Governmental activities	3.00 – 7.10 %	\$ 11,050,000
Governmental activities – refunding	2.50 – 4.90	<u>7,685,000</u>
		<u>\$ 18,735,000</u>

On March 1, 1999, St. Clair County through the Department of Public Works issued \$1,485,000 in WSS No. IIA Refunding General Obligation Bonds to partially advance refund the 1991 WSS No. II General Obligation Bonds totaling \$1,565,000.

On May 28, 2003, St. Clair County through the Department of Public Works issued \$4,520,000 and \$2,045,000 in WSS VII Refunding Series 2003A and 2003B Bonds, respectively to advance refund the 1994 WSSVII General Obligation Bonds and to partially advance refund the 1995 WSSVII General Obligation Bonds, respectively.

On May 18, 2004, St. Clair County through the Department of Public Work issued \$470,000 SDSX 2004 Refunding Bonds to advance refund SDSX series 1991B in the amount of \$465,000.

On February 10, 2004, St. Clair County through the Department of Public Works issued \$2,740,000 WSSIX 2004 Refunding Bonds to partially advance refund the WSSIX Series 1996 and Series 1998 Bonds in the amounts of \$4,700,000 and \$850,000 respectively.

The proceeds from the refunding issues, after payment of issuance costs, were placed in special escrow accounts and invested in securities of the U.S. Government and its agencies. The maturities of these investments coincide with the principal and interest payments on the extinguished debts and are sufficient to pay all principal and interest when due. Accordingly, the trust account assets and liabilities for the defeased bonds outstanding are not included in the DPW Financial Statements. At December 31, 2008 the bonds outstanding of \$790,000, \$3,400,000, \$1,340,000, and \$280,000, are considered defeased.

Drinking Water Revolving Loans

Department of Environmental Quality Bonds have been sold through the State of Michigan Drinking Water Revolving Fund to construct water supply systems for three (3) Townships and a City in the County. The County, in turn, is leasing the systems to the townships and city that operate, maintain and manage the systems. The full faith and credit of the Townships, City and County are pledged for the payments to the Drinking Water Revolving Fund. The original amount of the drinking water revolving fund loans drawn in prior years was \$20,837,554.

NOTE 9 - LONG-TERM DEBT - (cont'd):

Road Commission

MTF Bonds – Series 1999 –

The County of St. Clair, Michigan issued \$6,000,000 of Michigan Transportation Fund Bonds, Series 1999, dated June 1, 1999 pursuant to the provision of Act 51, Public Acts of Michigan of 1951, as amended. The Bonds are issued in anticipation of and are payable from monies derived from State collected taxes returned to the Road Commission from the Michigan Transportation Fund for highway construction and construction and work incidental thereto pursuant to Act 51.

As additional security for the payment of the principal of and interest on the Bonds, in the event and to the extent that Michigan Transportation Fund money is not sufficient to pay such principal and interest, the County is obligated to advance from its general fund money sufficient to pay such principal and interest. The County does not have the power to levy taxes to pay principal of and interest on the bonds over and above its authorized tax rate established pursuant to law. To the extent such an advance is made from the County's general fund, the general fund shall be reimbursed from the first subsequent revenues received by the Road Commission from Michigan Transportation Fund money not pledged or required to be set aside and used for the payment of bonds or notes of other evidence of indebtedness.

The Bonds maturing on or prior to August 1, 2009 shall not be subject to redemption prior to maturity. Bonds maturing on or after August 1, 2010 shall be subject to redemption prior to maturity at the option of the County, in such order as shall be determined by the County, on any one or more interest payment dates on or after August 1, 2009. Bonds of a denomination greater than \$50,000 may be partially redeemed in the amount of \$5,000 or any integral multiple thereof. If less than all of the Bonds maturing in any year are to be redeemed, the bonds or portions of bonds to be redeemed shall be selected by lot. The redemption price shall be the par value of the bonds or portion of the bonds called to be redeemed plus interest to the date fixed for redemption.

Principal on the bonds is due on August 1, 2009 through 2014 with interest due semi-annually on February 1 and August 1 at interest rates ranging from 4.5% to 4.95%. The balance as of December 31, 2008 was \$2,935,000.

MTF Notes – Series 2001 –

The County of St. Clair, Michigan issued \$2,500,000 of Michigan Transportation Fund Notes, Series 2001, dated August 21, 2001 pursuant to the provision of Act 202 Public Acts of Michigan 1943, as amended. The Notes are issued in anticipation of and are payable from money derived from State collected taxes returned to the Road Commission from the Michigan Transportation Fund for highway construction and construction and work incidental thereto pursuant to Act 202.

Principal on the notes is due on August 1, 2009 through 2011 with interest due semi-annually on February 1 and August 1 at an interest rate of 4.0%. The balance as of December 31, 2008 was \$750,000.

Accrued Sick and Vacation -

In accordance with contracts negotiated with the various employee groups of the Road Commission, individual employees have a vested right upon termination of employment to receive payment for unused sick leave and vacation under formulas and conditions specified in the contracts. The dollar amount of these vested rights, which has been accrued on the financial statements, amounted to approximately \$102,000 for sick leave and \$188,000 for vacation at December 31, 2008.

Drain Commission

South Branch of Mill Creek Intercounty Drain Bonds -

In November 2006 the South Branch of Mill Creek Intercounty Drainage District issued \$3,220,000 of bonds for improvements to the drain. The Drainage District includes both St. Clair and Lapeer Counties, and the bonds are backed by the full faith and credit of both Counties. Payments on the bonds have been split 61.61% and 38.39% for St. Clair County and Lapeer County, respectively, and will be paid from special assessments against property and public corporations within the Drainage District. St. Clair County is responsible for maintaining the fund to account for the activity of the issue and the construction, with the respective portions being reported by the two Counties.

Principal on the bonds is due on June 1, 2008 through 2017 with interest due semi-annually at interest rates ranging from 4.0% to 6.0%. St. Clair County's portion of the bonds at December 31, 2008 was \$1,799,012.

State Clean Water Revolving Fund Loan -

Department of Environmental Quality Bonds have been sold for \$2,425,000 and \$560,000 through the State of Michigan Clean Water Revolving Fund to construct sanitary sewer improvements, including two sanitary sewage pump stations and a treatment lagoon for the South Branch Pine River Drain Drainage District. Payments on the loans will be paid through special assessments. The amounts drawn as of December 31, 2008, on the Project #2 amounted to \$520,476. The full amount of Project #1, or \$2,425,000, has been expended as of December 31, 2008.

NOTE 10 - RETIREMENT PLAN:

Plan Description -

The St. Clair County Retirement System is a single employer, defined benefit pension plan, which was established by County ordinance in 1964 to provide retirement and pension benefits for substantially all employees of St. Clair County, the St. Clair County Road Commission and St. Clair County Community Mental Health Authority (certain employees hired on or after January 1, 2009 are covered by a defined contribution plan). The system is administered, managed and operated by a Board composed of 9 trustees, a member of the Board of Commissioners, a member of the St. Clair County Road Commission Board, one appointed citizen, five elected employees of the retirement system and one retired member elected by the retired members. The benefit provisions are governed by Michigan Public Act of 1984, as amended. The plan may be amended by the County Board of Commissioners. The plan is audited within the scope of the audit of the basic financial statements. Separate audited financial statements are not issued.

The membership at December 31, 2007 was composed of 986 active participants, 537 retirees and beneficiaries, and 91 inactive but vested members. In general all employees are eligible for regular retirement as follows:

Sheriff Department - 25 years of service regardless of age. Benefit calculated based on the total service times an annual multiple of final average compensation. Maximum benefits 75% of final average compensation.

Road Commission and General County (except Prosecuting Attorney) – when age plus service equals 80 and service is at least 25 years. Maximum benefits 69.6% of final average compensation (75% of final average compensation if service is 25 years or more for certain County General and Road Commission).

ST. CLAIR COUNTY, MICHIGAN

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2008

NOTE 10 - RETIREMENT PLAN - (cont'd):

Other Employees - age 55 with 25 years of service. Benefits are calculated based on the total service times 2.0% of final average compensation. Maximum benefits 64% to 75% of final average compensation.

All Employees - age 60 with 8 years of service.

In addition to the regular retirement provisions, the system allows for the following retirement provisions at regular or reduced benefits:

- Deferred Retirement - 8 or more years of service, benefits begin at 60 or at age 55 with 25 or more years of service.
- Death In-Service - 10 or more years of service.
- Duty Disability – Sheriff's Department plan members 10 or more years of service, others no age or service requirements but must be in receipt of Worker's Compensation payments.
- Non-Duty Disability - 10 or more years of service.
- Life insurance - \$3,500 policy to retirees.

Summary Of Significant Accounting Policies –

Basis of Accounting -

The St. Clair County Retirement System utilizes the accrual basis of accounting and is reported within the County's reporting entity as a separate Pension Trust Fund. Contributions from employees are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable, in accordance with the terms of the Plan.

Method Used to Value Investment -

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value.

Contribution and Funding Policy -

The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. During the year ended December 31, 2008, contributions totaling \$6,704,626 (\$4,312,555 employer and \$2,392,071 employee) were made in accordance with contribution requirements determined by an actuarial valuation for the plan as of December 31, 2006. The employer and employee contributions represented 8.10-11.59% and 5.0% of covered payroll, respectively. The contribution requirement of a plan member and the County are established by the St. Clair County Retirement Board and may be amended by the St. Clair County Board of Commissioners. Most administrative costs of the plan are paid with retirement assets.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 10 - RETIREMENT PLAN - (cont'd):

The required contribution rate was determined as part of the December 31, 2006 actuarial valuation using the individual entry age normal cost method. The actuarial assumptions included (a) 7.5% net investment rate of return, and (b) projected salary increases of 5.5% to 16.0% per year, which includes pay inflation at 5.0%. There are no projected cost of living adjustments. The actuarial value was determined using techniques that smooth the effect of short-term volatility in the market value of investment over a five-year period. The Plan unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed period, with a remaining amortization period as of December 31, 2006 of 23 years decreasing by one year, then rolling at 20 years. The assumptions were last revised for the December 31, 2005 valuation.

Schedule of Funding Progress -

NOTE 11 - POSTEMPLOYMENT HEALTH CARE PLAN:

The plan administered through St. Clair County provides retirement benefits for substantially all employees of the County, including employees of the St. Clair County Road Commission and employees of the St. Clair County Mental Health Authority. Postemployment benefits consist of Blue Cross and Blue Shield, dental and prescription drug coverage.

The employees covered by the postemployment benefits and memberships are the same as noted for the basic retirement plan (Note 10). In general all employees are eligible for postemployment benefits as follows:

Some retirees age 55 and older are provided Blue Cross and Blue Shield, dental and prescription and drug coverage for recipient and dependents with 25 years of service or age 60 with 8 years of service. (Age 50 with 25 years of service for Sheriff Department or at age 60 with 8 years of service). Members of groups with "Rule of 80" are eligible if the sum of their age plus years of service are greater than or equal to 80 and their years of service equal 25 years or more.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 11 - POSTEMPLOYMENT HEALTH CARE PLAN - (cont'd):

All retirees who have attained age 65 are provided an annual payment of \$14.00 for each month retired while older than age 65 with less than 20 years of service during the year and \$16.00 per month for members with 20 or more years of service at retirement.

Beneficiaries of deceased retirees and survivors of deceased employees are provided Blue Cross and Blue Shield and dental coverages for recipients and dependents beginning no earlier than age 55 if appropriate pension options have been selected.

The County makes contributions based on actuarially determined rates; however, in total the employer contribution does not exceed 13% for both the basic retirement plan and postemployment benefit. The basic retirement plan is funded 100% of the actuarially determined amount with the remaining amount contributed for postemployment benefits.

Summary of Significant Accounting Policies -

The Basis of Accounting and Method Used to Value Investments are the same as the Retirement Plan, outlined in Note 10. The County has adopted Governmental Accounting Standards Board (GASB) Statement 45 prospectively in the current year.

The postemployment benefits are accounted for through two trust funds, one is established under the IRS Code Section 401h, which is combined with the basic retirement plan assets as described in Note 10. The other trust fund was established on July 1, 2006 under Michigan Public Act 149. All contributions on or after July 1, 2006 are recorded in the PA 149 Fund with all payments for "postemployment benefits" being paid from the 401h plan.

The investments of the 401h are invested with the basic retirement plan. The retirement board has established a rate of return on the 401h investments of 6% regardless of actual results of the investments.

Benefits and refunds are recognized when due and payable, in accordance with the terms of the plan. Certain contracts specify member contributions from employees ranging from 1.3% to 2.25%.

Contribution and Funding Policy -

The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. During the year ended December 31, 2008, contributions of \$3,479,307 (\$3,305,515 employer and \$173,792 employee) were made. Employer contributions ranged from 1.41% to 4.9% of covered payroll. The actuarial valuation dated December 31, 2006 determined a contribution rate ranging from 18.34% to 38.25% of covered payroll for 2008 using an assumed rate of increase of health care costs as follows:

	<u>Medical and Prescription Drug</u>	<u>Dental</u>
2009	9.0 %	5.33 %
2010	8.5	5.00
2011	8.0	5.00

NOTE 11 - POSTEMPLOYMENT HEALTH CARE PLAN - (cont'd):

The contribution requirement of a plan member and the County are established by the St. Clair County Retirement Board and may be amended by the St. Clair County Board of Commissioners. Most administrative costs of the plan are paid with plan assets.

The required contribution rate was determined as part of the December 31, 2006 actuarial valuation using the individual entry age normal cost method. The actuarial assumption included (a) 5.3% net investment rate of return, and (b) projected salary increases of 5.5% to 16.0% per year, which includes pay inflation at 5.0%. There are no projected cost of living adjustments. The actuarial value was determined using techniques that smooth the effect of short-term volatility in the market value of investment over a five-year period. The Plan unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed period, with a remaining amortization period as of December 31, 2006 of 30 years.

Annual OPEB Cost and net OPEB Obligation –

The County and its component unit's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents the level of funding necessary to cover the normal cost each year and the amortization of any unfunded actuarial liabilities (or funding excess) amortized over a period of thirty years. The annual OPEB cost for the year, the amount actually contributed, and changes in the net OPEB obligation are as follows:

	<u>Primary Government</u>	<u>Component Units</u>
Annual required contribution	\$ 7,167,906	\$ 3,832,678
Interest on net OPEB obligation	-	-
Adjustment to annual required contribution	-	-

Increase in net OPEB obligation	5,123,297	3,214,962
NET OPEB obligation – beginning of year	-	-
NET OPEB obligation – end of year	<u>\$ 5,123,297</u>	<u>\$ 3,214,962</u>

Employer contributions shown above differ from supplementary information due to the different year-end of the Community Mental Health Authority.

NOTE 12 - CONTINGENT LIABILITIES:

Primary Government –

The County participates in a number of federal and state assisted grant programs, which are subject to compliance audits. The Single Audit of the Federal programs and the periodic program compliance audits of many of the state programs have not yet been conducted or completed. Accordingly, the County's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

There are various other legal actions pending against the County. Due to the inconclusive nature of many of the actions, it is not possible for Corporate Counsel to determine the probable outcome or a reasonable estimate of the County's potential liability, if any. Those actions, for which a reasonable estimate can be determined of the County's potential liability, if any, are considered by County Management and Legal Counsel to be immaterial.

A substantial portion of the Health Department's total patient revenues are for services provided to Medicare, Medicaid and Blue Cross and Blue Shield of Michigan patients. Payments for these services are based upon allowable costs incurred and are subject to final audit by the intermediaries.

Road Commission –

In the normal course of its operations, the St. Clair County Road Commission often becomes a party to various claims and lawsuits. In the opinion of the Road Commission's legal counsel, if any of these claims should result in an unfavorable resolution to the Road Commission, the Road Commission's liability would be limited to its deductible under insurance policies. The insurer would pay the losses, and there should be no material effect on the financial position of the Road Commission.

NOTE 13 - RISK MANAGEMENT:

Primary Government -

The County is self-insured for property and liability, health care, unemployment, workers' compensation, and disability. Property and liability insurance are charged to participating funds based on the County's cost allocation plan. Each participating fund of the County makes payments to the Self-Insurance Internal Service Fund equal to an established percentage of gross salaries for that fund, if deemed necessary for health care, unemployment, workers' compensation and disability. These payments are accounted for as other services and charges in the paying fund and charges for services in the receiving fund.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 13 - RISK MANAGEMENT - (cont'd):

The County is completely self-insured for unemployment compensation and short-term disability claims, and is self-insured for workers' compensation claims up to an amount of \$350,000 in individual claims for 2008.

Based on claims currently pending and past history, the County has estimated accrued claims, including an estimate for claims incurred but not reported (IBNR), of \$0, \$0 and \$211,000 for unemployment compensation, disability and worker's compensation, respectively.

In addition, the Primary Government, including the Drain District, is a voluntary member of the Michigan Municipal Risk Management Authority established pursuant to laws of the State of Michigan which authorize local units of government to exercise jointly any power, privilege or authority which each might exercise separately.

The administration of the Authority is directed by a nine member Board of Directors composed of municipal representatives from the membership elected by the membership. The Board establishes the general policy of the Authority, creates and publishes rules to be followed by the Manager and Board and is empowered with the authority to impose sanctions or terminate membership. The County, by resolution of the County Board of Commissioners, has designated a representative to the Authority to be responsible for the execution of all loss control measures, to ensure the payment of all annual and supplementary or other payment requirements, and to ensure the filing of all required reports and to act as a liaison between the County and the Authority.

The Authority administers risk management funds providing St. Clair County with loss protection for general and auto liability, and property. Under most circumstances the County's maximum loss per occurrence is limited as follows:

<u>Type of Risk</u>	<u>Maximum Retention Per Occurrence</u>
General and auto liability	\$ 250,000
Property and Crime	1,000 per occurrence, plus 10% of the next \$100,000 of loss

The County has also elected to be a member of the Stop Loss Program, which limits the County's self-insurance retention. For 2008, that Stop Loss Program limited the retention for St. Clair County to \$733,000 in aggregate claims paid during the year.

The Authority provides risk management, underwriting, reinsurance and claims services with member contributions allocated to meet these obligations.

The Authority has established a reserved fund balance to pay losses incurred by members, which exceed individual retention levels and are not covered under existing reinsurance agreements. Losses incurred within the established limits are general obligations of the Authority. In the event that St. Clair County incurs a loss in excess of the resources available, the County is liable for the excess.

Based on claims currently pending and past history, the County has estimated the accrued claims, including an estimate for claims incurred but not reported (IBNR), of \$440,000, which is recorded in the Self-Insurance Fund.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 13 - RISK MANAGEMENT - (cont'd):

The County is self-insured for health care benefits with the administrative services of the program being performed on a contractual basis by a third party. The County pays claims up to \$75,000 per contract per contract year. Stop-loss insurance has been purchased to insure the County against losses in excess of these limits. Based on past history, the County has estimated the accrued health care claims, including an estimate for claims incurred but not reported (IBNR), of \$510,000 at December 31, 2008, which is recorded as current liabilities in the Self Insurance (Internal Service) Fund. Changes in the balance of claims liability during the past two years as reported in the Self-Insurance (Internal Service) Fund are as follows:

Component Units -

Road Commission -

The Road Commission, including the Department of Public Works, is a member of the Michigan County Road Commission Self-Insurance Pool established pursuant to the laws of the State of Michigan, which authorizes contracts between municipal corporations (inter-local agreements) to form group self-insurance pools, and to prescribe conditions to the performance of these contracts.

ST. CLAIR COUNTY, MICHIGAN

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2008

NOTE 13 - RISK MANAGEMENT - (cont'd):

The Michigan County Road Commission Self-Insurance Pool was established for the purpose of making a self-insurance pooling program available for Michigan County Road Commissions, which includes, but is not limited to, general liability coverages, auto liability coverages, property insurance coverages, stop-loss insurance protection, claims administration, and risk management and loss control services pursuant to Michigan Public Act 138 of 1982.

The Road Commission pays an annual premium to the Pool for property (buildings and grounds) coverage, automobile liability, errors or omissions liability and bodily injury, property damage and personal injury liability. The agreement for the formation of the Pool provides that the Pool will be self-sustaining through member premiums and will purchase both specific and aggregate stop-loss insurance to the limits determined necessary by the Pool Board.

The Road Commission is also a member of the County Road Commission Road Association Self-Insurance Fund for Workers' Compensation self-insurance. This Fund is a municipal self-insurance entity operating within the laws of the State of Michigan. The Fund has entered into reinsurance agreements providing for loss coverage in excess of amounts to be retained by the Fund.

The Road Commission continues to carry commercial insurance for accident insurance. The amount of settlements (claims) for the past three years has not exceeded insurance coverage.

The Road Commission is self-insured for health care benefits. The administrative services for the self-insured program are performed by the health insurance company. The Road Commission makes monthly payments, based on estimated claims and a stop-loss provision, which are adjusted quarterly.

The Road Commission has estimated accrued health care claims in excess of the last quarter payments, including an estimate for claims incurred but not reported (IBNR), of \$32,000 at December 31, 2008, which is recorded as a current liability.

Community Mental Health Authority -

The Authority is exposed to various risk of loss to general and auto liability, property damage and errors and omissions. The Authority is a member in a public risk pool administered by the Michigan Municipal Risk Management Authority for risk of losses relating to its property and general liability (including auto liability and vehicle physical damage).

MMRMA is a municipal self-insurance entity operating pursuant to the State of Michigan Public Act 138 of 1982. The purpose of the MMRMA is to administer a risk management fund, which provides members with loss protection for general and property liability.

The St. Clair County Community Mental Health Authority has joined with numerous other governmental agencies in Michigan as a participant in MMRMA's "State Pool". Members of the State Pool do not have individual self-retention amounts other than \$250 deductible per occurrence of property and vehicle coverage.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 13 - RISK MANAGEMENT - (cont'd):

State Pool members' limits of coverage (per occurrence) are \$15 million for liability and approximately \$3,300,000 for property and crime. If a loss exceeds these limits or, if for any reason, MMRMA's resources are depleted, the payment of all unpaid losses are the sole obligation of the St. Clair County Community Mental Health Authority.

The Authority is self-insured for a portion of health care benefits. The Authority makes monthly payments based on actual claims.

The Authority purchases workers compensation insurance through a commercial carrier with a maximum limit of \$500,000 per occurrence.

NOTE 14 - MAJOR TAXPAYER:

The County is economically dependent upon the Detroit Edison Company that has real and personal property within the County with a taxable value of \$706,722,581. This represents approximately 11 percent of the taxable value for the County.

NOTE 15 - DEFERRED COMPENSATION:

The County, the St. Clair County Mental Health Authority and the St. Clair County Road Commissions offer their employees deferred compensation plans created in accordance with Internal Revenue Code Section 457. The plans, available to all employees, permit them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

A trust, custodial account or annuity contract exists, assets are owned or held by the trust, custodian or insurer for the exclusive benefit of participants and beneficiaries, and are not subject to the claims of public employer creditors nor can they be used by the public employer for any purpose other than the payment of benefits to those individuals participating in the plan or their designated beneficiaries.

DESIGNATED FUND BALANCE -

The various governing boards of the County have the power to designate, or set aside, all or a portion of unreserved Fund Balance for specified purposes. The following is a summary of Board-Designated Fund Balances for all County funds at December 31, 2008:

<u>Fund Type/Fund</u>	<u>Purpose</u>	<u>Amount</u>

Total Designated Fund Balance – Primary Government		<u>\$ 2,682,093</u>

The County has also earmarked \$100,894 of the Airport net assets for future construction.

NOTE 17 - CLOSURE AND POSTCLOSURE CARE COSTS:

State and Federal laws and regulations require that the County of St. Clair place a final cover on its landfill and performs certain maintenance and monitoring functions at the landfill site for thirty years after closure. In addition to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfill no longer accepts waste. The recognition of these landfill closure and postclosure care costs is based on the amount of the landfill capacity used during the year. The estimated liability for landfill closure and postclosure care costs was \$8,769,616 at December 31, 2008, which is based on the estimated percentage of capacity used to date of 48.7%.

Currently the County has 75 acres licensed, with an additional 27 acres available for licensing. It is estimated that an additional \$16,218,567 will be recognized as closure and post-closure care expense between the date of the balance sheet and the date the landfill is expected to be filled to capacity and monitored for 30 years. The estimated remaining life of the landfill is 16 years.

The estimated total current cost of the landfill closure and post-closure care cost of \$24,988,183 is based on the amount that would be paid if all equipment, facilities and service required to close, monitor, and maintain that landfill were acquired as of December 31, 2008. However, the actual cost of closure and post-closure care may be higher due to inflation, changes in technology or changes in landfill laws and regulations.

ST. CLAIR COUNTY, MICHIGAN

**NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2008**

NOTE 17 - CLOSURE AND POSTCLOSURE CARE COSTS - (cont'd):

In addition, as required by State regulations, the County has established the Landfill Private-Purpose Trust Fund for the accumulation of statutory fees and interest earnings to be used by the State of Michigan, if necessary, to safely maintain the landfill after its closure.

The County is also required by the State of Michigan to purchase an irrevocable line of credit in the amount of \$2,595,000 that can be drawn on by the State of Michigan to pay any necessary closure and post-closure costs. The County is in compliance with this requirement.

NOTE 18 - SPECIAL ITEM-TAX TRIBUNAL SETTLEMENT:

The County and other taxing authorities have agreed to a settlement with the Detroit Edison Company regarding the taxable value of power plants located within the County. Under that settlement the County has agreed to repay \$5,131,037 for the tax years 2002-08, by May 15, 2009. As a result, a liability has been recorded in the amount of \$4,922,978, the \$5,131,037 less the 2008 tax levy for the senior citizens, drug task force, library, and parks and recreation funds, which will be refunded from the 2008 year taxes collected and recognized in 2009. Under the agreement the Detroit Edison Company will make an "additional payment" equal to the reduction in the taxes for the 2009-2012 tax years. The refund for the 2006 and prior tax years has been recorded as a "special item" on the fund financial statements and the statement of activities in the amount of \$4,157,064. Tax revenues for calendar 2008 (2007 tax levy) have been reduced by \$765,914.

NOTE 19 - PRIOR PERIOD ADJUSTMENT:

Primary Government –

The beginning net assets of the Solid Waste Disposal System Fund (Enterprise Fund) and the Business-Type Activities have been increased by \$6,064,135 for a change in the method of calculating the closure/postclosure liability.

NOTE 20 - SUBSEQUENT EVENT:

In March 2009, the Bunce Creek and Huffman Drain Drainage District of St. Clair County issued \$4,625,000 general obligation bonds for drain improvements to the District. The bonds are to be paid by special assessments against various local municipalities. The County has pledged its full faith and credit as additional security for payment on the bonds.

The County Board of Commissioners approved a resolution in April 2009 to issue bonds, not to exceed \$4,000,000 for the construction of communications towers. As of the date of this report, the bonds have not been issued.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

1. The General and Major Special Revenue Funds budgets shown in the required supplementary information were prepared on a basis consistent with accounting principles generally accepted in the United States of America and on the same modified accrual basis used to reflect actual results.

SUPPLEMENTARY INFORMATION

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes. The Special Revenue Funds of the County are as follows:

Friend of Court – is used to account for the revenues and expenditures of the Friend of the Court office required in 1982 Public Acts 294 through 298.

County Planning – is used to account for the planning and information gathering activities undertaken to improve County roads, housing, general development and related activities that benefit County residents. Financing is provided by state and federal grants, charges for services and General Fund appropriations.

Brownfield Redevelopment – is used to account for earmarked funds set aside under Public Act 381 for the St. Clair County Brownfield Redevelopment Authority as well as federal and state grants received by this authority. These funds are used to encourage redevelopment, including tax increment financing revolving loan funds and tax credits.

Public Improvement – is used to account for the funds earmarked for improvements in County facilities or equipment. Financing is provided by General Fund appropriations.

Drug Task Force – is used to account for a County special millage and seized property used for the enhancement of the law enforcement effort pertaining to controlled substances. It also includes funding for drug prevention programs from state and federal sources.

Drug Law Enforcement – is used to account for revenues derived from the sale of assets seized by the Drug Task Force in drug cases and expenditures made in accordance with state drug forfeiture laws.

CDBG Housing – is used to account for federal grant money received after 1987 for renovations made to qualified housing. It is also used to account for the loans resulting from these renovation projects.

HUD Housing – is used to account for federal grant money received prior to 1987 for renovations made to qualified housing. It is also used to account for the loans resulting from these renovation projects. The interest from the loans, and the repayments, supplement funding to future grants.

Human Services – is used to account for the cost of providing financial assistance to County residents who cannot meet basic requirements for personal needs, shelter and medical care. Financing is provided by the Michigan Family Independence Agency and General Fund appropriations.

Child Care – is used to account for court-ordered expenses for the health and welfare of minor children, and community based residential treatment program for emotionally impaired children and their families. Financing is provided by General Fund appropriations and state matching of certain eligible costs.

Veterans Trust – is used to account for earmarked revenue for aid to veterans. This fund is required by state law and is financed by state grants.

Emergency 911 – is used to account for revenues and expenditures of purchasing and providing Emergency 911 services.

Deeds Automation – is used to account for the revenues and expenditures set aside for the updating and streamlining the records system in the deeds office.

Local Corrections and Training – is used to account for the County’s portion of booking fees collected in the Jail and used for corrections officer education and training and/or inmate substance abuse/mental health programs.

Family Counseling – is used to account for the portion of marriage license fees set aside for providing family counseling to individuals who have domestic related actions pending before the Circuit Court.

Tax Reserve – is used to account for additional tax revenues collected due to a State mandated collection shift. These funds will be used to smooth the effects of the tax shift in later years.

DEBT SERVICE FUNDS

Debt service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. The Debt Service Funds of the County are as follows:

Communications – is used to account for the debt service requirements related to the communications system.

Building Authority – is used to account for the accumulation of rents paid by the County departments for payment of separate debt service requirements on revenue bonds sold to defray the cost of construction and improvements to various County buildings. It also accounts for the payment of Debt Service requirements on revenue bonds sold to construct the new administrative facility.

Jail/Juvenile Facility – is used to account for the accumulation of resources and payment of debt for the Jail/Juvenile facility.

CAPITAL PROJECTS FUNDS

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital projects (other than those financed by Proprietary and Trust Funds). The Capital Projects Funds of the County are as follows:

Municipal Building – is used to account for local revenues used for major improvements to existing County buildings.

Day Treatment/Night Watch (DTNW) Building – is used to account for the construction of a new County Day Treatment/Night Watch facility.

Jail/Juvenile Facility – is used to account for the bond proceeds and construction of the Jail/Juvenile facility.

Communications Construction – is used to account for the bond proceeds and local participation revenues, and the construction costs of the communications system.

PERMANENT FUND

Lewis Memorial Endowment Fund – is used to account for collection of and distribution of assets held for the Clayton and Florence Lewis Memorial Book Fund.

ENTERPRISE FUNDS

Enterprise Funds are used to report operations that provide services, which are financed primarily by user charges, or activities where periodic measurement of net income is appropriate for capital maintenance, public policy, management control or other purposes. The Enterprise Funds of the County are as follows:

Airport Commission – is used to account for the operation of the County-owned airport which sells gasoline, rents hangers, etc.

Sheriff's Concession – is used to account for the concession operations in the County Jail complex, which sells various items to the jail inmates.

Homestead Exemption Audits – is used to account for the operations of administering audits of County residents claiming homestead exemption on their property.

School Tax Collection – is used to account for the administrative fees charged to school districts for the collection of their taxes.

FIDUCIARY FUNDS

Fiduciary Funds are used to account for assets held by the County for the other parties (either as a trustee or as an agent) that cannot be used to finance the County's own operating programs.

Pension Trust Funds –

Basic Retirement System – is used to account for employer and employee pension contributions, investment income, accumulated assets and payments to beneficiaries including retiree health care.

401h Health Care Fund – is an account within the pension trust fund established to account for employer and employee contributions, investment income, accumulated assets and payment for past employment benefits other than pensions. Starting on July 1, 2006 no new contributions are being recorded in this fund; however, benefit payment will continue to be paid from this fund until all the assets are used.

PA 149 Health Care Fund – was established on July 1, 2006 to account for employer and employee contributions, investment income, accumulated assets and payment for past employment benefits other than pension.

The Pension Fund is accounted for in essentially the same manner as Proprietary Funds, but with an important expanded emphasis on net assets available for pension benefits.

Agency Funds –

Trust and Agency – is used to account for assets held by the County as an agent for individuals, private organizations, other governments and other funds.

Library Penal Fines – is used to account for the portion of fines that are collected by the 72nd District Court and distributed to the St. Clair County Public Library and County Law Library.

Payroll – is used to account for payroll activities to County employees.
